Ricoh Company, Ltd.

^{*} The Company bases the forecast estimates for March 31, 2004 above upon information currently available to management, which involves risks and uncertainties that could cause actual results to differ materially from those projected.

Performance

*Overview

Consolidated net sales for the 3rd quarter of fiscal 2004 (the three months period from October 1 to December 31, 2003) amounted to \(\frac{4}{2}0.9\) billion. During this quarter, the average yen exchange rates were at \(\frac{4}{1}08.92\) against the U.S. dollar (an appreciation of approximately 11.2% as compared to the previous corresponding period) and \(\frac{4}{1}29.58\) against the Euro (a depreciation of approximately 5.7% as compared to the previous corresponding period). Net sales would rise 0.6% excluding impacts of such foreign currency exchange fluctuations.

In Japan, sales of printing systems such as MFPs (multifunctional printers) and laser printers increased. We strategically focused these product categories in order to deal with customer needs shifting to multifunctional and networking. In addition, solutions business such as useware and support continued to be favorable. Overall domestic sales consequently increased by 1.3% as compared to the previous corresponding period.

As for overseas, sales of product categories such as PPCs (plain paper copier), MFPs and laser printers, especially color models, increased in each region. Although sales in Europe increased by 12.5% as compared to the previous corresponding period, sales in the Americas decreased by 9.8% as compared to the previous corresponding period (1.2% increase excluding foreign currency exchange impact), due to the yen's appreciation to the U.S. dollar. And sales in other region such as China, Asian and Oceania countries decreased by 14.1% as compared to the previous corresponding period, owing to decline of optical disks demands and cutback of analog camera business. As the result, overall overseas sales decreased by 1.2% as compared to the previous corresponding period. Excluding impacts of the foreign exchange fluctuations, overall overseas sales would have decreased by 0.1%.

Operating income increased by 8.4% to ¥36.2 billion in spite of increase of social insurance premium and strategic costs in research and development and the others. It is due mainly to the effect of new offering and sales growth of high-margin, high-value-added categories such as color PPCs, MFPs and laser printers, as well as ongoing cost cutting activities.

Income before income taxes consequently increased by 10.9% as compared to the previous corresponding period, to \footnote{33.2} billion, despite of foreign exchange losses in other income expense.

Due to the change of the Corporate Tax Law in Japan, the amount of tax exemption on research and development expenses was increased, and the overall profitability improved, thereby leading to a decline in the effective tax rate. As a result, net income increased by 10.5% as compared to the previous corresponding period, to ¥19.6 billion.

*Conditions by Product Line

Office Equipment (Sales up 0.8% to ¥368.5 billion)

Customer demand has shift more and more to networking and colorization in Japan and overseas market place. In that business environment, we have enforced solution proposal to customers for the optimization of their total printing cost in order to support their efficient management of TDV (total document volume). As a result, sales of printing systems such as MFPs and laser printers have continued to grow.

In Japan, sales of Network System Solution category such as useware and support continuously increased in addition to that demand's shift. And overseas sales increased despite of the yen'sappreciation to the U.S. dollar, due primarily to color products and the continuous offerings of new products. As a result, the total sales of Office Equipment increased by 0.8% as compared to the previous corresponding period, to \(\frac{1}{2}\)368.5 billion.

Imaging Solutions (Sales down 9.3% to ¥189.0 billion)

Digital Imaging Systems

- Shift to multifunctional products cause the sales decline of facsimiles and duplicators
- Overseas sales of color PPCs increased in each region.

As a result, sales in this category decreased by 5.0%.

Other Imaging Systems

- Sales were down by 20.6% due to the shift from analog products to MFPs and color products

Network Input/Output Systems (Sales up 17.5% to ¥137.9 billion)

Printing Systems

- Continuous new offering products to cope with the shift to networked and color models in Japan and overseas (Imagio Neo 352/452 series and Imagio Neo C385/C325 series in Japan) (Aficio 2022/2027 series and Aficio CL3000/CL7000 series overseas)
- Sales of MFPs and laser printers continued increasing.
- Steadily progressed sales of color products, especially overseas

As a result, sales of this category increased by 21.0%.

Other Input/Output Systems

Sales in the optical discs business, which was favorable results in the previous term, decreased by 7.5%.

Network System Solutions (Sales up 3.9% to ¥41.6 billion)

- Responded to customer's needs for cost cutting on information technology and workflow performance improvement on data processing.
- Continuous sales growth of solution business such as useware and support
- Sluggish customer demand for PC and server touched bottom.

Operating income for the entire office equipment business increased by 12.5% as compared to the previous corresponding period, to ¥ 49.9 billion. This can be ascribed to the continued introduction of new high-margin, high-value-added products, an increase in their sales, and the effects of ongoing cost-cutting efforts in production, although yen's appreciation to U.S. dollar was unfavorably impacted.

Other Businesses (Sales down 4.8% to ¥52.3 billion)

Sales in this category decreased by 4.8% as compared to the previous corresponding period, to \$52.3 billion, due primarily to the cutback of analog camera business and sluggish demand for meter equipments. Other business such as leasing achieved steady gains. As a result, overall operating income for other businesses decreased to \$1.0 billion.

*Cash Flows (Nine months from April 1, 2003 to December 31, 2003)

Net cash provided by operating activities decreased \(\frac{4}{30}\).4 billion as compared to the previous corresponding period, to \(\frac{4}{81}\).6 billion. It was due to the fact that net income increased as compared to the previous corresponding period and trade receivable decreased, although inventories increased in order to cope with overseas sales expansion and income tax and bonus were paid.

Net cash used in investing activities was ¥40.4 billion due to capital investment in new product lines and product development.

As a result, free cash flow generated by operating and investing activities totaled \$41.2 billion, up \$5.8 billion as compared to the previous corresponding period.

Net cash provided in financing activities amounted to ¥9.2 billion due primarily to temporary increase of interest-bearing debt, payment of dividends and reacquisition of treasury stock.

As a result, cash and cash equivalents at the end of the 3rd quarter were ¥49.1 billion higher than the end of the preceding year, standing at ¥238.3 billion.

*Forecast for the entire fiscal year

As for the forecast of business results for the fiscal year ended March 31, 2004, we have slightly reduced our sales forecast as announced in October 2003 to ¥1,777.0 billion with 2.2% growth as compared to the previous year. However, we believe that domestic sales can continuously increase due to the effect of sales strategies taken proactively in this 3rd quarter, and overseas sales can further increase. For the 4th quarter and onward, we maintain our exchange rate assumption of ¥108.00 against the U.S. dollar and of ¥128.00 against the

As for income, we revised upward our forecast of operating income from ¥152.0 billion announced in October 2003 to ¥153.0 billion, due primarily to steady results up to 3rd quarter and our anticipation of further improvement in profitability. In terms of our forecast of income before income tax and net income in the current fiscal year, we intend to remain as announced in October 2003, ¥144.0 billion and ¥85.0 billion respectively.

Exchange Rate Assumptions for the full year ended March 31, 2004

US\$ 1 = \$113.26 (\$121.96 in previous fiscal year)

EURO 1 = \$131.13 (\\$121.00 in previous fiscal year)

			(Billions of yen)
	Year ended	Year ended	
	March 31, 2004	March 31, 2003	Change
	(Forecast)	(Results)	
Domestic sales	900.0	896.0	0.4%
Overseas sales	877.0	842.3	4.1%
Net sales	1,777.0	1,738.3	2.2% (*1)
Gross profit	778.0	745.3	4.4%
Operating income	153.0	133.6	14.5%

6. Significant Accounting Policies (Consolidated)

1. Change relating to the scale of consolidation and the application of the equity method from October 1, 2003 to December 31, 2003.

Consolidated subsidiaries: No change

Companies accounted for by the equity method:

No addition

Removal: T&P Co., Ltd.

2. Consolidated Accounting Policies (Summary)

(1) Principles of Consolidation

The consolidated financial statements include the accounts of Ricoh and its consolidated subsidiaries. Investments in 20% to 50% owned companies when the company has the ability to exercise significant influence are accounted for on the equity basis. All significant inter-company balances and transactions have been eliminated in consolidation.

(2) Securities

In conformity with SFAS No.115, securities are mainly classified as available-for-sale securities. Available-for-sale securities are reported at fair value with unrealized gains and losses, net of related taxes, excluded from earnings and reported in accumulated other comprehensive income (loss).

The cost of the securities sold is computed based on the average cost of each security held at the time of sale.

(3) Inventories

Inventories are mainly stated at the lower of average cost or market. Inventory costs include raw materials, labor and manufacturing overheads.

(4) Plant and Equipment

Depreciation of plant and equipment is computed principally by using the declining-balance method over the estimated useful lives. Most of the foreign subsidiaries have adopted the straight-line method for computing depreciation. Certain leased buildings, machinery and equipment are accounted for as capital leases in conformity with SFAS No. 13, "Accounting for Leases."

(5) Goodwill and Other Intangible Assets

In conformity with SFAS No.142, Goodwill and intangible asset determined to have an indefinite useful life are not amortized. SFAS No. 142 requires annual impairment testing thereof.

(6) Use of Estimates

Management of the Company has made a number of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, including impairment losses of long-lived assets and the disclosures of fair value of financial instruments and contingent assets and liabilities, to prepare these financial statements in conformity with generally accepted accounting principles. Actual results could differ from those estimates.

Each category includes the following product line:

Digital PPCs, color PPCs, digital duplicators and facsimile machines

Digital Imaging Systems
Other Imaging Systems
Printing Systems
Other Input/Output Systems
Network System Solutions
Other Purineesses Analog PPCs, diazo copiers, and thermal paper MFPs(multifunctional printers), laser printers and software

Optical discs and system scanners
Personal computers, PC servers, network systems and network related software
Optical equipments, metering equipments and semiconductors

Other Businesses
